Midwest Computer Products, Inc. (MCP), headquartered in West Chicago Illinois, provides clients with audiovisual solutions designed to maximize the impact of computer generated presentations. In business for over 40 years and proudly certified by the audiovisual industry, MCP has the expertise, knowledge, strength, and stability to meet the project needs of our client base. Being a USAV Integrator gives MCP the ability to deploy any room solution by using our network of USAV partners to any major city in US and Canada.

Professional design and installation services are a hallmark tradition at MCP. We are committed to providing outstanding personal service on every project. Look to MCP to bring you the latest in audiovisual technology from the leading manufacturers in the industry. Knowledge and experience let us earn your trust.

Client Solutions

Our involvement right from the start of the project as a key member of your team ensures that a carefully planned systems design and implementation effort will bring your audiovisual project to life, including – but not limited to:

- Auditoriums
- Meeting Room Scheduling
